AAMA
The American Academy of Medical Acupuncture® presents the
29th Annual Medical Acupuncture Symposium

Join us April 6–9, 2017
at the Wyndham Grand
Pittsburgh Downtown
Pittsburgh, Pennsylvania

EARLY BIRD SPECIAL | SAVE UP TO $50!
Register online by January 23, 2017, at
www.medicalacupuncture.org
**MEDICAL ACUPUNCTURE REVIEW COURSE**

The Academy will offer the Medical Acupuncture Review Course on Tuesday and Wednesday, April 4-5, prior to the start of the Symposium. The Review Course will meet from 9:00 am to 5:00 pm on Tuesday, April 4 and from 8:00 am to 4:30 pm on Wednesday, April 5. The AAMA Board Certification Examination will be offered on Sunday, April 9 from 1:00 pm to 5:00 pm. Separate registration is required for the Review Course. Registration information has been forwarded to Academy Practitioners. Others may contact the AAMA office for registration materials or go to www.medicalacupuncture.org and click on Review Course Registration/Information.

**INTRODUCTION**

The American Academy of Medical Acupuncture® is pleased to present a symposium designed to meet an expressed need to explore the mechanisms of acupuncture from several different perspectives, and to examine current scientific research in the field of medical acupuncture. This meeting addresses topics suggested by practitioners and stresses many different approaches for addressing practical clinical problems. An emphasis on evidence-based scientific research is integrated with practical protocols for the serious clinician. Surveys and evaluations from previous symposia indicate that there is a desire for more information about acupuncture techniques that honor the rich history of Asian medicine as applied to the contemporary, Western medical practice.

The wide variety of styles and topics covered in this year’s symposium include: osteopathic techniques with acupuncture; auricular acupuncture; Master Tung’s Magic Points; pediatric acupuncture and shonishin; neuroanatomic acupuncture; veterinary acupuncture; TCM acupuncture in pregnancy; laser acupuncture; five-phase pediatric acupuncture; holistic approaches to chronic illness; Vietnamese contributions to European acupuncture; differently informed approaches to acupuncture in pain management, Hana electroacupuncture; and current acupuncture research.

This conference will offer a multi-tiered approach for the understanding and clinical relevance of acupuncture in daily practice. It will expand our awareness of scientific research into the effects of acupuncture, and provide participants with information about different approaches for the treatment of common conditions seen in clinical practice. Clinicians will learn multi-faceted ways to tailor acupuncture treatments for their individual patients. This conference will focus on clinically relevant treatment approaches that can easily be integrated into clinical practice.

**WHO SHOULD ATTEND?**

The Symposium is designed for instruction and training of health care professionals interested in or already practicing acupuncture. Medical practitioners with no experience and those with extensive background in medical acupuncture will find the program useful in their medical practices.

The Pre-Symposium Workshops are intended to provide a more concentrated learning experience where the faculty can spend the entire day focused on a topic in greater depth and with more time for practical examples from clinical experiences.

**ACCREDITATION**

The American Academy of Medical Acupuncture® is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Academy of Medical Acupuncture® designates this live activity (Symposium) for a maximum of 22 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Academy of Medical Acupuncture® designates this live activity (each Pre-Symposium Workshop) for a maximum of 7.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**SYMPOSIUM OBJECTIVES**

Learning objectives for physicians attending the Symposium General Sessions. Physicians will be able to:

- Review evidence-based approaches to neuroanatomic acupuncture that cross species, and identify similarities and differences between human and veterinary medical acupuncture and determine ways that shared knowledge benefits both domains;
- Identify evidence identifying patients who are likely to respond to acupuncture and how to apply that knowledge in your practice;
- Describe pediatric conditions such as Attention Deficit and Hyperactivity Disorder (ADHD) in terms of the Five Phases Model and discuss their management accordingly;
- Discuss the impact of acupuncture on the immune system, immune response, and immunomodulation;
- Use acupuncture appropriately in the support of pregnancy and post-partum care;
- Emphasize the role of acupuncture in the treatment of chronic pain and discuss new research in this area;
- Understand the evidence supporting acupuncture in the treatment of various diseases and conditions; and
- Understand the scientific basis for acupuncture and its potential applications in modern medicine.

**EARLY BIRD DISCOUNT: SAVE UP TO $50**

**WHEN YOU REGISTER BY JANUARY 23, 2017!**

SAVE TIME & MONEY! USE YOUR CREDIT CARD AND FAX YOUR REGISTRATION FORM TO AAMA TODAY AT 310.379.8283

Symposium Objectives continues on next page...
Symposium Objectives continue...

- Review the history of ICMART and the importance of the relationships of world-wide medical acupuncture organizations;
- Examine the common diagnoses seen in a typical “week in the life” of an acupuncture practitioner, and practical approaches to those problems;
- Discuss the relationship of neuroimaging in neuropathic pain and carpal tunnel syndrome and outcomes of interventions;
- Identify the ways to see the underlying spiritual issues that present in the course of medical acupuncture practice;
- Use five element and systemic correspondence theories to observe clues to the hidden stories behind chronic illness;
- Review useful extracts from the Sino-Franco-Viet tradition of acupuncture that has heavily influenced European acupuncture in the 20th century, particularly pearls and background concepts delivered by Nguyen Van Nghi during 50 years of teaching in France;
- Describe the mechanisms of laser acupuncture and learn about the risks and benefits of this modality and learn how to apply laser acupuncture clinically;
- Review current clinical trials and pain management, and how to apply those insights in your clinical practice;
- Discuss the use of holistic principles in the management of pain in patients;
- Review the rationale and application of Han electroacupuncture techniques. Biomedical physiology concepts.

**THURSDAY, APRIL 6, 2017**

**PRE-SYMPOSIUM WORKSHOPS**

— Pre-Symposium Vice-Chair —

David Miller, MD, LAc

7:30 am – 5:00 pm

**REGISTRATION**

7:30 am – 8:00 am

**CONTINENTAL BREAKFAST**

8:00 am – 8:30 am

ALL WORKSHOPS ARE CONCURRENT

10:00 am – 10:15 am

**REFRESHMENT BREAK**

12:00 pm – 1:30 pm

**LUNCH ON YOUR OWN**

3:30 pm – 3:45 pm

**REFRESHMENT BREAK**

6:00 pm – 7:00 pm

**WELCOME RECEPTION**

**PRE-SYMPOSIUM WORKSHOP I**

**Principles and Applications of Osteopathic Manipulation for Medical Acupuncturists:**

A Dozen and More Treatment Techniques to Use Monday Morning

Workshop led by Jay Sandweiss, DO, FAAMA.

Dr. Sandweiss will present his favorite “Hands-on” treatment techniques for relieving pain and dysfunction of common conditions affecting the cervical, thoracic, lumbar, pelvic, sacral, upper and lower extremities regions. These treatments may be used before or after acupuncture to increase the successful resolution of pain, weakness and dysfunction. These time-tested treatments can stand alone without acupuncture application. Drawing on his 38 years of clinical experience, Dr. Sandweiss will treat attendees to many clinical pearls in a relaxed, playful atmosphere of learning.

**Learning Objectives. At the end of this workshop, attendees will be able to...**

- Define and describe Somatic Dysfunction;
- Define and describe the concept of motion barriers;
- Review the functional anatomy of the axial skeleton, cranium, and extremities;
- Review the principles of spinal motion;
- Practice palpatory exercises to locate restricted body regions;
- Practice manual techniques to release restricted areas;
- Learn manual muscle tests that evaluate local joint mechanics and muscle inhibition;
- Explain and demonstrate how medical acupuncturists can integrate manual techniques with acupuncture.

**PRE-SYMPOSIUM WORKSHOP II**

**Auricular Causative Diagnosis: Approach for the Treatment of Acute and Chronic Locomotor Conditions**

Workshop led by Nadia Volf, MD, PhD and Leonid Ferdman, MD. Practical workshop allows participants to follow Nadia Volf in complete treatment of patients (voluntary participants).

- Started by auricular diagnosis, the analysis of visual marks on auricular points indicating the patient’s symptoms and manipulations to identify their cause.
- Once identified, the fragility in the internal organ leading to the development of the disease and finding the explanation of its development. Dr. Volf establishes an individualized treatment strategy for each patient, incorporating ear and body points. Dr. Volf will explain a detailed therapeutic approach and will perform the treatment. According to the level of the pathology, the treatment may include the primary meridians, but also tendino-muscular, divergent and 8 extraordinary meridians.
- This is a unique opportunity for participants to benefit from the knowledge and expertise of Nadia Volf, to allow them to apply these knowledge to their own patients.

**Learning Objectives. At the end of this workshop, attendees will be able to...**

- Map auricular points and their interactions;
- Recognize the visual marks and find the inner cause of the symptom’s development;
- Treat effectively symptoms according to their inner cause with ear and body acupuncture points in different levels: symptomatic, immunity and constitutional (genetic);
- Identify and prevent the fragility of the body and treat it before the onset of disease.

**PRE-SYMPOSIUM WORKSHOP III**

**Master Tung’s Magic Points**

Workshop led by Susan Johnson, LAc.

The primary goal of this eight hour course is to provide medical acupuncturists with an understanding of the energetics employed when using Master Tung’s Magic Points.

Ms. Johnson will present a brief history of Tung’s Point system and a selection of some of the most commonly used points for daily clinical use. Following this class, participants will be able to utilize the points discussed, immediately, in their own clinical setting. In this introductory course, a variety of Ms. Johnson’s favorite points in Master Tung’s system are presented in depth, with precise anatomical location, operative theory, indications, and crystal-clear digital video footage. These seminars are designed for both beginning and advanced practitioners.

**Learning Objectives. At the end of this workshop, attendees will be able to...**

- Summarize history of Tung’s Magic Points in the USA;
- Review the use of The Nine Stars of the Magic Square and how we can use it to help with the selection of points within Tung’s acupuncture system for structural issues and pain;
- Discuss the seven operative theories involved in the proper use of Tung’s Magic Points: opposite-side needling technique, Dao Ma or Back Horse technique, active qi-moving technique, five element relationships, guiding points, I-Ching relationships and bleeding techniques;
- Utilize a variety of points and point patterns from Tung’s system of points, including: point location, operative theory, indications, needling techniques, contraindications and a digital video presentation of location and technique for every point presented.

**PRE-SYMPOSIUM WORKSHOP IV**

**Pediatric Acupuncture and Shonishin**

Workshop led by Raven Lang, OMD, LAc.

Shonishin is a pediatric method developed in Japan, which is based upon TCM theories from 2000 years ago. It first came into practice in the 17th century, but in the last 75 years has become the main treatment for children throughout Japan. In North America it has been utilized in family practices or in a practice specializing in pediatrics. This form of acupuncture is baby and child friendly, and is easy to administer.

When a child is well, they receive shonishin once per month. When there is a problem, weekly treatments are usually adequate until the adjustments and changes are made and corrected. When a problem is acute, treatment can be performed daily.

Shonishin is used for maintenance of wellness, prevention of disease, and also for conditions of disharmony, illness, or pathology. Treatment will stimulate the immune system by stimulating endorphin production in the body, which in turn stimulates healing. It also addresses the spirit and gives a general wellness feeling to the child.

Shonishin is normally given with a series of tools that are used for a rhythmic rubbing, tapping, bleeding, and scratching along meridians or in areas of the body such as the lungs, stomach, Ming Men or Dantian. Needle insertion is also part of shonishin, but treatment is often done without any insertion. If a needle is used, it is a very thin gauge.

This form of acupuncture can be used from birth until the child is ready for regular acupuncture treatments.

**Learning Objectives. At the end of this workshop, attendees will be able to...**

- Give Shonishin to children of all ages and understand the techniques for tonification or sedation.
- Determine if the child needs acupuncture needles and know how to administer them with ease.
- Teach the parents proactive skills to strengthen the child and to augment the medicine between visits to the doctor’s office. You will learn how to instruct parents with simple daily techniques to do for each child, and to ward off common problems with age-old common sense relationships to weather, diet, and lifestyle.
- Common pediatric problems such as ear infections, coughs, lowered immunity, skin, and problems in appetite, digestion, and elimination will be thoroughly addressed.

**Hotel Reservations**

**Deadline March 12, 2017**

Make your reservations at the Wyndham Grand Pittsburgh Downtown. Call 1.888.317.0197 for reservations. Don’t miss this Symposium!

Visit www.medicalacupuncture.org for up-to-date event details and to register online!
TO REGISTRATION FEES, REGISTRATION FORM AND PAYMENT IN FULL MUST BE RECEIVED BY JANUARY 23, 2017. Registration forms received after January 23, 2017, will be charged the regular fees. Registrations received after March 6, 2017, will be charged the late reservation fees. All participants, authors and presenters attending the meeting must register. Programs and name badges will be distributed on site. To register, go online at www.medicalacupuncture.org, or use the enclosed Registration Form and return it, with your payment in full [check made payable to AAMA], or return it by fax if paying by credit card. Be sure to indicate your preferences for the Pre-Symposium Workshops. Space for these sessions is limited, and will be assigned strictly on a first-come, first-served basis. Registration confirmations will be sent within two weeks of receipt. Use one Registration Form per Attendee.

CANCELLATIONS
There will be a $75 handling fee assessed for cancellations. Requests for refunds must be in writing and received at the Academy’s office by March 27, 2017. No refunds will be issued for cancellations received after March 27, 2017.

TUITION
Tuition includes refreshment breaks, lunch on Friday and Sunday and the Saturday afternoon Wine and Cheese Reception. This year the tuition fee also includes the Friday Dinner and Entertainment. All fees payable in U.S. Dollars.

PRE-SYMPOSIUM WORKSHOPS
Fee – $295 each

SYMPOSIUM REGISTRATION FEES
Early Bird Registration (Available for AAMA Members only) Received by January 23, 2017
AAMA Fellow and Full Members $690
AAMA Affiliate Members $790
Non-members (includes cost of 1 year Affiliate membership*) Medical Students, Residents And Active Military $490
(Must submit proof of status.)

Regular Registration Received by March 6, 2017
AAMA Fellow and Full Members $740
AAMA Affiliate Members $840
Non-members (includes cost of 1 year Affiliate membership*) Medical Students, Residents and Active Military $540
(Must submit proof of status.)

Late Registration Received after March 6, 2017
AAMA Fellow and Full Members $800
AAMA Affiliate Members $900
Non-members (includes cost of 1 year Affiliate membership*) Medical Students, Residents and Active Military $600
(Must submit proof of status.)

*Non-members – For non member physicians, registration fee includes the cost of one year of AAMA Affiliate membership dues (cost $175). To be eligible, the non member physician must not have previously held a membership and must otherwise meet the requirements for Affiliate membership. Go to www.medicalacupuncture.org for membership requirements.

SYMPOSIUM SYLLABUS
Print version available.
In a commitment to make a better impact on the environment, the Academy Board has arranged to have the Syllabus available in disk format (CD/DVD), as well as available for download in advance of the meeting. The disk version will be provided to all delegates. If you wish to purchase printed Syllabus, there is a $30 fee. At the meeting, any available print or disk versions will be available for purchase while supplies last.

EXHIBITS
Each year time is set aside during the Symposium for attending physicians to meet with suppliers to the medical profession, particularly practicing physician acupuncturists.

POSTER PREsentations
The Academy provides a Poster Presentation opportunity for members to present interesting clinical cases or clinical research. Poster Presenters are eligible for cash prizes for the best poster presentations. For information on this opportunity and the requirements for participation, go to www.medicalacupuncture.org or contact the Academy Offices. See the POSTER Presentation Guidelines.

RESEARCH PAPER COMPETITION
The Academy sponsors a Research Paper Competition in conjunction with the Symposium. A session is scheduled for Sunday morning where the winning papers will be announced and where the First Place paper will be presented. For information on this opportunity and the requirements for participation, go to www.medicalacupuncture.org or contact the Academy Offices.

CELEBRATORY DINNER
Join us Friday evening, April 7th as we celebrate with old and new friends, dinner, dancing and more. We will recognize new Fellows and Symposium Award recipients and the Symposium Faculty. There is no additional cost for the dinner for registered delegates. Guest dinner tickets for spouses or others may be purchased on the registration form.

BOARD CERTIFICATION EXAMINATION
Sunday, April 9, 2017
1:00 pm – 5:00 pm
Offered by the American Board of Medical Acupuncture. Available only for those who have applied for Board Certification and have been found “Board Eligible.” Separate reservation is required. Contact the ABMA office.

MEMBERSHIP IN THE AAMA
The purpose of the American Academy of Medical Acupuncture® is to promote the integration of concepts from traditional and modern forms of acupuncture with Western medical training and thereby synthesize a more comprehensive approach to health care. See membership information and applications at www.medicalacupuncture.org.

ABOUT THE WYNDHAM GRAND PITTSBURGH DOWNTOWN AND HOW TO MAKE RESERVATIONS
The Academy has negotiated a block of rooms at the specially discounted rate of $175/night (single/ double). To reserve a room at that rate, call 1.888.317.0197, or the hotel’s direct number 412.391.4600, and be sure to mention the AAMA Symposium. You must make your reservation by March 12, 2017, (or when our block of rooms sells out, whichever comes first) in order to get the discounted rate.
Sponsored by the American Academy of Medical Acupuncture®
