Dear Sir/Madame,

as Presidents of the 1st Mediterranean Congress on Auricular Neuromodulation, it gives Dott. Giancarlo Bazzoni and Dr. Miltiades Karavis a great pleasure to invite you to the 1st Mediterranean Congress on Auricular Neuromodulation organized by the Department of Biomedical Sciences of the University of Sassari and the Medical International Society of Auricular Acupuncture, Italy in Greece in 2014.

The Congress will promote excellence in auricular neuromodulation and aim to bridge gaps between the basic research and its application in clinical practice.

We would like the Congress to become a significant venue for the scientific exchange, with high quality of papers and debates to discuss the most recent information, controversies and future directions of auricular (and not only auricular) neuromodulation.

The choice of Greece as the venue of the 1st Mediterranean Congress on Auricular Neuromodulation is a tribute to the cradle of our Medicine, to its great ancient culture and its magnificent nature as well.

We very much look forward to meet you at MeCAN 2014.

For further information, please visit the official site of the congress:  
http://www.auricular-acupuncture.com

and you are requested to give extra notice to the registration deadline dates.

Early registration deadline: 30 March 2014

Best Regards,
Alessio Pirino
